LAMINATE WITH
**EMBLEM
EASYLAM**
Bambino

The **EMBLEM EASYLAM Bambino** is a resourceful smaller-sized format cold laminator used to easily laminate and seal material with a maximum width of 30^{11/16} inches (780 mm) and a thickness of 2^{23/64} inches (6 mm).

To activate the lamination process, one can use the foot-pedal or the integrated handle switch.

The laminator is a standalone unit which does not require assembly.

The built in foolproof technique works trouble free with a design easy to use even by an absolute beginner.

Offered at reasonable rates, the Bambino model fully meets all expectations of a cold laminator. It also works great for the professional handling of application paper and films.

EMBLEM EASYLAM Bambino, used in conjunction with compatible EMBLEM cold lamination films, offers a reliable, cost efficient and versatile professional laminating system for small business operations such as advertising studios, printing offices, copy centers, etc.

SPECIFICATION	
width pressure rolls	31 ^{1/2} inch (800 mm)
diameter pressure rolls	2 ^{3/4} inch (70 mm)
max. width laminating film	30 ^{11/16} inch (780 mm)
max. thickness laminated material	236 mil (6 mm)
lamination speed	99 inch/min. 2,5 m/min.
power supply	12V= / 2,5A
machine-weight approx.	88lbs (40 kg)
operating control	foot-pedal / switch
dimensions	49 ^{3/16} x 45 ^{1/4} x 30 ^{5/16} inch (1250x1150x770 mm)
Technical specifications are subject to change.

EMBLEM INC.

LAMINATE WITH
**EMBLEM
EASYLAM**
junior II

EMBLEM EASYLAM junior II is a large format cold laminator used to easily laminate and seal media with material widths of up to 55^{1/8} inch (1.400 mm)

The pressurized rubber rollers are height adjustable, and can process material with a thickness of up to 1^{2/11} inch (30 mm), allowing for the processing of a variety of material.

With its ergonomic design the **EMBLEM EASYLAM junior II** is the perfect solution for professional and cost efficient graphics montage, and the sealing and application of laminating film. It also offers easy handling of application papers and films.

EMBLEM EASYLAM junior II, used in conjunction with compatible EMBLEM cold lamination films, offers a reliable, cost-efficient professional sealing system perfect for small business operations such as advertising studios, printing offices, and copy centers.

SPECIFICATION

width pressure rolls	55 ^{7/8} inch (1420 mm)
diameter pressure rolls	3 ^{1/8} inch (80 mm)
max. width laminating film	55 ^{1/8} inch (1400 mm)
max. thickness laminated material	1182 mil (30 mm)
lamination speed	99 inch/min. 2,5 m/min.
power supply	12V= / 2,5A
machine-weight approx.	132 lbs (60 kg)
operating control	foot-pedal / switch
dimensions	68 ^{7/8} x 45 ^{3/16} x 29 ^{1/2} inch (1750 x 1300 x 750 mm)

Technical specifications are subject to change.

Laminator EASYLAM Avantgarde

EASYLAM Avantgarde

Der Laminator EASYLAM Avantgarde vereint 10jährige Erfahrungen im Umgang mit professionellen Laminatoren in sich und ist das Ergebnis umfangreicher Anwenderstudien. Bei einer Verarbeitungsbreite von 1600 mm mit perfekter Technik bietet diese Maschine die optimale Finish-Lösung für die professionelle Herstellung von Klebmontagen, Versiegelungen, sowie für ein- oder beidseitig aufbringbare Lamine.

The laminator EASYLAM Avantgarde is the result of 10 years experience of usage professional lamination machines and studies at operator place. EASYLAM Avantgarde can be used with laminationfilm up to 1600 mm width. This high-performance-laminator can be used for optimum finishing-solution for professional mounting and sealing, as well as for one or two sided laminates.

Praxisgerechte Materialführung, vielfältige Einstellmöglichkeiten und eine in 14 Abstufungen regelbare Arbeitsgeschwindigkeit von bis zu 8m/min. machen diesen Laminator zu einer universellen Veredelungs- und Schutzlösung für Inkjetdrucke, Fotos, Bilder, Kollagen Kunstdrucke u.v.m.

Practical material guidance, multiple setting-options and variable speed with 14 steps up to 8m/min. makes this laminator to a universal finishing- and protection-solution for inkjet ,

photos, collages, art-prints and many more.

Die großzügige Auslegung des Walzenabstandes von bis zu 40 mm, einfache Achskupplung und selbstgreifende Kernhalter garantieren universellen Materialeinsatz bei extrem kurzen Rüstzeiten. Jede der Ab- und Aufwickelachsen ist durch eine eigene, fein regulierbare Bremse individuell für die faltenfreie Laminatabwicklung und die einwandfreie Aufwicklung des Liners einstellbar. Die Walzenöffnung wird elektrisch eingestellt.

Das Bedienpanel ist übersichtlich strukturiert und die Menüs können intuitiv sofort genutzt werden. Die obere Walze ist auf 50 Grad Celsius beheizbar. Die hochwertigen Silikonwalzen haben einen Durchmesser von 110 mm und führen das angewärmte Kaltlaminat geschmeidig auf den Druck. Eine verstellbare Anlageplatte, Sicherheitssensoren, Walzendrucksensoren, Überhitzungsschutz und Notausschalter sind selbstverständlich Bestandteile beim EASYLAM Avantgarde. Das Design dieser Maschine hebt sich angenehm vom

EMBLEM MEDIATRIM
 ist perfekt geeignet, um laminierte Drucke auf Maß zurecht zu schneiden.

Laminator

EASYLAM Avantgarde

funktionalem Aussehen anderer Maschinen dieser Klasse ab.

EASYLAM Avantgarde - in Verbindung mit EMBLEM Laminat-Folien - ist ein für den professionellen Einsatz konzipiertes Kaschiersystem, das durch sein günstiges Preis-Leistung-Verhältnis in jeden Produktionsbetrieb passt.

The broad dimension of roll-distance up to 40 mm, simple axial-coupling and selffixing coreholders guarantee an universal material-compatibility with minimal refitting effort of time. Each axle can be individually trimmed by its own fine-adjustable brake. This puts you in a situation to laminate shrink free and of a perfect coiling of the liner.

The roll-distance can be turned electrical between 0 and 40 mm. The structure of the controlpanel gives the user a comfortable overview of the function of EASYLAM Avantgarde.

The user interface makes it possible for fast access. The upper roll can be heated up to 50 degrees Celsius. Both rolls are made of high-quality silicon roller. The diameter of the rolls are 110 mm. These rolls are feeding the warmed laminationfilm more flexible to the print. An adjustable printable, sensors for user-protection and pressure of the rolls and emergency stops are standard components of Avantgarde. The design is exceptionally and not comparable to other lamination machine in this class. EASYLAM Avantgarde in connection with the suitable optimized EMBLEM lamination films is a lamination system designed for professional use. Due to the good cost/performance ratio, this system fits in any production environment.

Technische Daten / Technical Features	
Laminatrollenbreite max. / max. width of lamination-film-roll	1680 mm
Verarbeitungsbreite / max. working width	1642 mm
